

WINDOW CLEANING SYSTEM

Key benefits include:

- The water fed pole window cleaning system reaches, and cleans, previously inaccessible windows as well as frames, fascia and conservatory roofs.
- Environmentally friendly as NO chemicals are used.
- Eliminates the need for expensive and hazardous high access equipment - can reach and wash windows at heights of up to 65 feet.
- Operators work from the safety of the ground (100% safe)
- Pure water cleaning consumes dirt leaving surfaces to dry to a spotless, streak-free finish.
- Improves privacy and reduces disturbance.

- We currently strive to offer an all inclusive service at very competitive rates!
- We take immense pride in our work and the deliverance of high quality service is what sets us apart from any of our competitors!

PORTABLE APPLIANCE TESTING UNIT (Also known as P.A.T.)

WHAT NEEDS TO BE P.A.T. TESTED?

All appliances and electrical products with a trailing lead and plug MUST be P.A.T. Tested, and certified to be in safe working order - essentially a repeat of the electrical safety tests done following manufacturing.

WHY DOES YOUR BUSINESS NEED TO P.A.T. TEST?

New Health, Safety and Welfare at Work Regulations in effect from November 2007 state that all companies, directors and managers have a duty to ensure that their electrical appliances are safe and do not pose a threat to employees, customers, or any members of the general public who may come into contact with them.

EAST COAST GUARANTEE - We guarantee that if you are not satisfied with the service you receive - we will return to your premises within 24 hours to rectify any errors made or deal with any issues you may have - at no extra cost of course!
